

Living in true style with SHINO

LET IT SHINE

SHINO has style. Given to it by the clear lines of the LIVING programme. Choose from surfaces in glass or wood. Both options lead to entirely new possibilities. Combine the furniture programme in numerous colours and create your individual living spaces with the multifaceted furnishings from the SHINO series.

Fig.: Body and cover plate in matt black, fronts and cover plate in white glass ▶

ELEGANCE IN WOOD

Elegant, stylish and homely – your lounge designed with the SHINO LIVING programme. Combined with black glass, the sophisticated wood look creates a wonderfully harmonious atmosphere. The chrome handles and feet discreetly accentuate and perfectly round off the overall appearance. Your lounge becomes a real eye-catcher – and most importantly a true place of rest and recreation.
